

We're still here!

It's been too long between newsletters and fairs! This past year we have seen way too many cancelled shows—which means we have missed seeing your smiling faces! Now that restrictions are lifted we are ready and raring to go!

WHAT'S NEW?

Hand & Body Lotion

Introducing our *new and natural* Aloe Vera and Shea Butter Hand and Body Cream. Why Aloe Vera? Here's the skinny:

- the juice hydrates your skin;
- locks in moisture;
- has cooling properties;
- is anti-inflammatory;
- fights skin aging, and
- reduces infection and acne!

Rouge Pot (cream blush)

Rouge Pot is our first cream blush that is sure to please! Here are a few highlights:

- natural ingredients;
- anti-aging properties;
- lasts all day;
- can be applied under or over your powder, liquid, or cream foundation;
- convenient compact for your purse, and
- more colors coming soon!

DID YOU KNOW?

Here are some benefits from using Just Heavenly Goat Milk Soap:

- **Goat Milk Soap has the same pH as human skin**—perfect for people with sensitive skin issues like eczema, psoriasis, or keratosis pilaris—since our skin's natural response to a foreign substance is to mount an inflammatory response. Because goat milk is so similar to human milk, the skin recognizes it and 'drinks' it in!
- **Goat Milk Soap has natural lactic acid.** This alpha-hydroxy acid (AHA) is known for its gentle hydration and exfoliation properties. Lactic acid also keeps moisture in and bacteria and allergens out!
- **Goat Milk Soap contains fatty acids** that help repair the skin barrier, probiotics to encourage the growth of normal skin flora, and vitamin A to help gently exfoliate. You'll notice softer skin!

INDEPENDENCE DAY SPECIAL!

FREE Lipstick to celebrate our FREEDOM!

When you buy any Just Heavenly foundation (Mineral Powder, Liquid SILK, or SatinFinish) from June 10th until July 5th you will have an option to get a FREE lipstick! Just place your color choice in the "comment" section at checkout.

Then go out and celebrate this great country in style!
